I ABOUT IBA

INTRODUCTION

The IBA is the oldest business school outside North America. It was established in 1955 with technical collaboration of U Penn's Wharton School of Finance and later University of Southern California. IBA set the standards of educational and professional excellence. It seeks to advance and encourage new ideas and to promote enduring values to guide the practice of management. Over the years, IBA has built a reputation for producing graduates of unmatched professionalism and sound ethical and moral values. IBA has an academic environment in which talented and outstanding young men and women are inspired to reach out to the farthest limits of their vision and capacities. IBA is proud of its nearly 7,500 accomplished alumni who are engaged in highly specialized and professional undertaking all over the world. Many of them hold demanding positions of administrative responsibilities in various fields of governance in Pakistan and abroad. We proudly celebrate their association with IBA.

CORE VALUES

• Merit • Truth • Integrity • Humility • Creativity • Discipline • Tolerance • Excellence

MISSION

Our mission is to provide education and training for management leadership in business and public sector in Pakistan. We aspire to be the best business school in Asia and amongst the best in the world. It is our cherished mission to establish links with renowned business schools in the world and with business and public sector organization in Pakistan and to try to introduce the knowledge, current and contemporary business culture and work - ethics for making Pakistan amongst the most competitive countries in the world.

IBA PHILOSOPHY

Our philosophy is rooted in the creative urge to strive continuously to improve upon all components of our system: culture, people and infrastructure; and to turn bright students with leadership potential into outstanding human beings and business professionals - the leaders for tomorrow.

MEETING THE CHALLENGES

A fine blend of our academic environment, research culture and highly qualified and devoted faculty at IBA, moulds bright and intelligent students with leadership potential into high performing entrepreneurs and professional managers.

THE GOAL AHEAD

IBA is set on a path of constant improvement, introducing changes in all critical fields of its undertaking. Its partnership with MICROSOFT has given a new dimension to the Center for Computer Studies, enabling students and faculty to remain abreast with the state of the art software and hardware.

It has entered into agreements with CBR to impart not only quality education to its probationers but also to its senior members in the field of management in order to realize the government's policy to change the culture and the managerial practices of this important department and to bring them to the accomplished level of modern-day needs and expectations.

II EXECUTIVE EDUCATION

The Center for Executive Education is a state-of-the-art learning and training resource center. It focuses on developing managers and providing opportunities for refining the skills needed to succeed in today's business environment.

The Center aims at helping organizations gain competitive advantage by developing their most important resource - their people. It is a nucleus for activities designed to enhance organizational effectiveness through training and developing working professionals in various disciplines and equipping them with the tools and knowledge to improve their managerial skills. The programs offered are designed to strengthen the participants' leadership skills with a focus on personal development, productivity improvement and strategic thinking. The Center specializes in executive education and management development activities through open-enrolment courses, client specific programs, consultancy and applied research.

The programs of the IBA-CEE focus on different levels of management and address strategic and technological issues vital to conducting business. In addition to key operational areas such as marketing, finance, accounting, operations, technology, human resources and strategy, the Center also offers courses and workshops on topics such as corporate law, creativity, innovation and personal career development, enabling the participants to gain and refresh their knowledge to become effective organizational leaders. The Center, in consultation with the faculty, designs course material that is relevant and caters to the organizational needs. Industry and business leaders are also invited as speakers during programs, to give insight on a topic relevant to the program.

These programs are highly dynamic and interactive. Advance training methodologies are used to enhance the learning experience. Emphasis is on interactive learning through a combination of lectures, analysis of case studies, simulations, class discussions, presentations, game/role play and syndicate sessions. The CEE ensures that the program participants learn how to think creatively, plan practically and implement successfully.

Client Specific Programs

The IBA-CEE also designs and runs programs, tailor-made for a particular client. It has developed a distinctive approach and believes that development activities must equip managers to handle change, develop their skills and improve performance.

The top management of the client organization is involved to ensure that the program supports their corporate mission and key business objectives.

Management Consultancy

The Management Consulting Group works on strategic projects that impact the overall performance of the client company, whether a foreign investor looking for a local partner or an indigenous corporation, wanting to restructure its operations and become more competitive. The engagements focus on:

- Evaluating, valuing and assisting in acquisitions, divestitures, strategic
- Alliances and mergers
- Venture capital sourcing
- Strategic business planning and implementation

- Organizational design
- Turnaround and/or Change Management
- Evaluating, improving and optimizing sales and distribution systems
- Assessing markets,
- Competitive position and optimizing
- Marketing mix

The Center provides focused and impartial advice that spans the full project lifecycle. Typically this leads from the strategy study through to the planning and implementation of the new systems or processes. Above all, IBA-CEE works as a partner with clients to achieve better results by stimulating new conversations, challenging assumptions, and developing authentic and generative relationships, which make a real and sustainable difference.

IBA-CEE Faculty

The Centers' executive education programs are developed and taught by the top quality IBA faculty and other specialists who are distinguished academicians, skilled educators, ground-breaking researchers and entrepreneurs in their respective fields. Representing various disciplines, they remain close to practice through relationships with business and industry leaders and personal involvement as consultants for top companies

Business Research

The Center is committed to the creation and dissemination of high quality research in all areas of business management including accounting, finance, human resources, marketing, management information systems, operations management and strategic management.

Physical Infrastructure Development

The Center for Executive Education is a modern, fully-equipped learning center in IBA City Campus. The facilities provide executive learning in an academic setting with the convenience of high technology infrastructure which include:

- Conference Hall and workshop hall
- Ancillary meeting rooms for small group activities

STUDENTS' ACHIEVEMENTS

Our students win distinctions and praises from foreign and local dignitaries for their confident, reasoned discourse, organized team work and knowledge. IBA student groups arrange numerous of seminars and conferences each year. As individual contestants, our students have been successful in national and international competitions

i. International Youth Business Development (YBD) Competition

A group of four students from IBA recently represented their institute at the Youth Business Development (YBD) Competition. The YBD is a competition organized by the Oxford University every year, inviting students from all over the world to participate by proposing business ideas with an element of novelty to them.

This year, teams from over 16 countries participated offering a tough competition for the judges with outstanding business ideas and business plans to choose from. "Team Daneen" as the team from IBA is called, brought proud laurels for the IBA when they were declared the winners of this Business Plan Competition for the year 2008. The participating students were Rafia Iqbal, Sadaf Aslam, Sidrat Asim and Farea Hashmi from the batch of BBA 2009.

ii. PTC's 'Battle Of Minds'

IBA students secured second position out of six teams for all over Pakistan in PTC's 'BATTLE OF MINDS' based on the concept of Corporate Social Responsibility (CSR).

The IBA team consisted of -

NATIONAL TALENT HUNT PROGRAMME

The growing income and regional inequalities in Pakistan necessitate that educational opportunities at institutions of excellence such as IBA are made available to talented and meritorious students from poor families and backward districts. To meet this objective the IBA will keep on increasing the number of scholarships and also set up a National Talent Hunt Programme (NTHP) to identify meritorious students from the backward districts of Pakistan, provide them special coaching to prepare for IBA entry tests and provide full financial support to those who are selected for admission.

In 2007, 12 students were trained and two of them qualified the IBA aptitude test as compared to 2004 in which 19 students were trained and one student qualified the aptitude test.

X RECENTLY COMPLETED MIS/IT PROJECTS

1. Recently Completed MIS Projects

Fee Management System (FMS)

The FMS allows is an enhancement to the existing Campus Management System (CMS) and provides all student receivables to be generated and tracked. This includes tuition, scholarships, installments, loan modules and degree/transcript payments. The system was developed by the IBA MIS department in 2007.

Online Admissions System (OAS)

The OAS provides an online registration system for all candidates applying to the IBA degree programs. The system was developed and implemented by the IBA MIS department in 2007. Further enhancements are underway in 2008 to include online credit card payment.

2. Recently Completed IT Projects

- a. Enhancement of Internet Services at IBA City Campus from 1Mbps to 2Mbps
- b. Implementation of Centralized Antivirus Suite (McAfee Total Protection Enterprise for Servers, Desktops and E-mail server).
- c. Purchase of 100 PCs, 20 Servers, 35 Printers and other IT accessories for staff, faculty and PC labs at both campuses.
- d. Installation of Cisco ASA5520 (Firewall) and Cisco routers at both campuses for network security.
