

IBA and Higher Education Commission Organizes a Workshop for Faculty, Library Staff and Students

On October 30, 2010, Mr. Hassan Nasir Zaidi, Head National Digital Library Program of Higher Education Commission, visited IBA on request by the Head Librarian. The purpose of his visit was to give orientation to the data bases provided by HEC. Two sessions, two hours each, were held at the Main Campus computer lab.

First session was for the faculty and staff which was attended by 25 persons including staff of IBA and library staff. Second session was for students and around 32 students attended this session. The workshop provided hands on practice to the data bases provided by HEC. The chief guest of the event Dr. Mohammad Nishat, acting Director of IBA, welcomed Mr. Zaidi and appreciated his efforts in familiarizing the databases of HEC to our faculty and students. The need to bring libraries on modern trend was emphasized.

During sessions questions were asked and it was a participatory and lively event. Mr. Zaidi also explained his limitations to provide all databases to every institution. However he promised to provide access to the maximum number of data bases. Head Librarian thanked Mr. Zaidi and requested him to provide maximum databases.
