

# EARLY CHILDHOOD MORTALITY

Fabiha Shahid 21707  
Research Intern  
IBA, Karachi

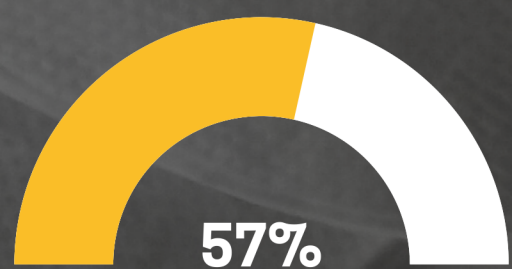

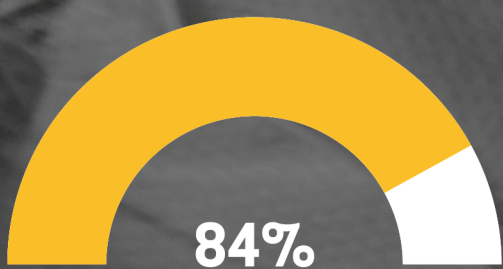

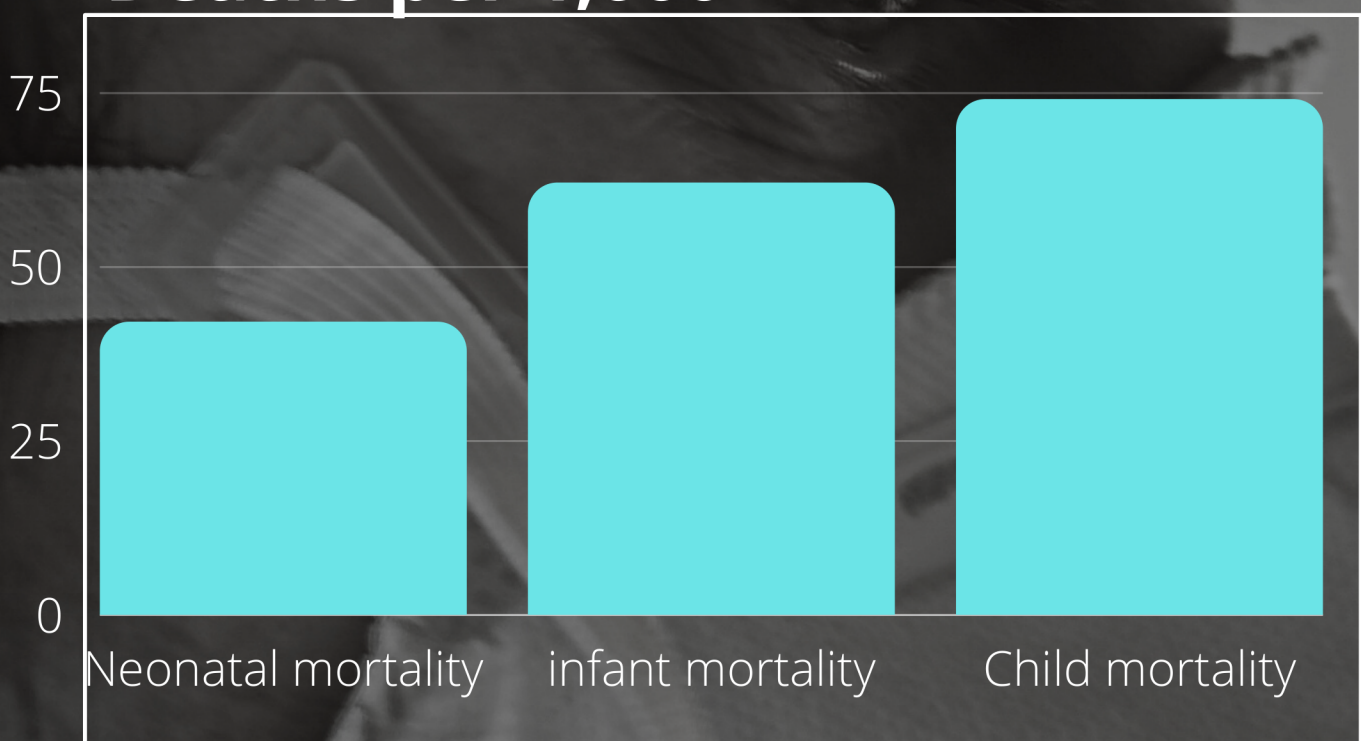

**Neonatal mortality: the probability of dying within the first month of life**

**Infant mortality: the probability of dying before the first birthday**

**Child mortality: the probability of dying between the first and the fifth birthday**

## Deaths per 1,000

**Eighty-four percent of all deaths among children under age 5 in Pakistan take place before a child's first birthday, with 57% occurring during the first month of life (42 deaths per 1,000 live births).**
